PROFILE

Self-motivated and quick to learn, full stack developer- fully committed to continuous learning and towards adopting new skills. Experienced in client satisfaction and goal oriented services with 10+ years in retail. Loves working on both group projects and solo developments. Experience using git branches to handle group development/merges. Eager to learn Python, C++, TypeScript and/or any new language/developer tool. Please take a look at my GitHub and my portfolio to see some examples of my work.
